	(CEQA – NOE, 11/25/2014.)  Outcome/Output: The purpose of this project is to address the safety of the students walking to and from school. The lack of sidewalks forces students to walk in the roadway. With the construction of sidewalks, ADA ramps, striping and signage along Castle Rock Street will eliminate the gaps in sidewalks so that school children have a safe path of travel to and from school eliminating the potential of fatal accidents occurring between motor vehicles and school children. Construction of these facilities will not only discourage pedestrian travel in the roadway but will also lower the chance of motor vehicle and pedestrian collisions.
